Work Experience

Vizzda: Commercial Real Estate Data - User Manager

4.5 years

501 S 48th St, Suite 110, Tempe, AZ 85281

Teammate and leader on operations side of the commercial real estate data SAAS product. Responsibilities included customer management, data fascilitation, information design, social media graphic designer, and user advocate on the product design team. Main responsibility as customer manager honed my sentivity for the users interaction with site design, information architecture, data element utility.

Levine Machine Development - Research Intern

3.5 months

605 E Grant St, Phoenix, AZ 85004

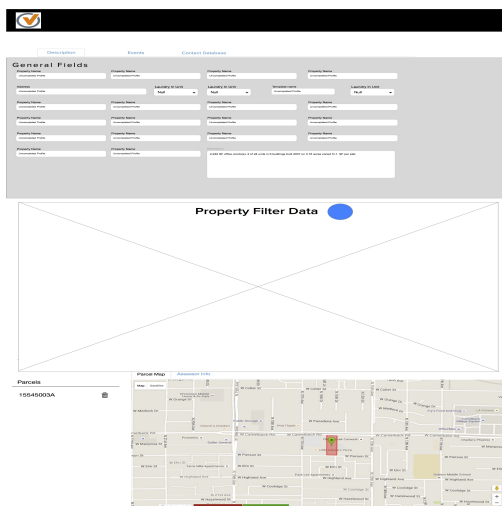

Michael Levine of Levine Machine Development is a developer & conservationist of historic building in downtown Phoenix. I managed his research into economic development financial devises in regards to case-law. This experience gave me an awareness for and strong opinions of interface design for information search.
